Codeforces: codex_s | LeetCode: codex_s | CodeChef: whirl_wind

PROFESSIONAL SUMMARY

Computer Science student at **NIT Jamshedpur** with strong expertise in **Data Structures, Algorithms, Competitive Programming, Machine Learning, and Web Development**. Proficient in **C++, Python, JavaScript**, scalable backend logic, and analytical problem solving.

EDUCATION

National Institute of Technology Jamshedpur <i>B.Tech in Computer Science and Engineering CGPA: 8.69/10</i>	2024 – 2028 <i>Jamshedpur, India</i>
St. Michael Anglo Indian School <i>Class XII: 91.8% Class X: 94.8%</i>	2021 – 2023 <i>Jharkhand, India</i>

TECHNICAL SKILLS

Languages: C++, C, Python, JavaScript, SQL
Core CS: DSA, OOPs, DBMS, Operating Systems, Computer Architecture, System Design
ML/DS: Scikit-learn, Pandas, NumPy, XGBoost, Matplotlib
Web/Tools: HTML5, CSS3, DOM, REST APIs, Git, GitHub, Linux

ACHIEVEMENTS

- Secured **Batch Rank 1** in **CodeFest 2024-25**, institute-level competitive programming contest at NIT Jamshedpur.
- Achieved **Rank 2** in **CodeFest 2025-26**, demonstrating consistency in algorithmic problem solving.
- Secured **Rank 1** in **Codezenith 2025-26**, coding contest focused on speed and logic.
- Achieved **Rank 2** in **Binary Blitz 2025-26**, contest based on DSA and implementation.
- Competitive coding profiles: **Codeforces Pupil (1330)**, **LeetCode 1738**, **CodeChef 3-Star**, **HackerRank 5-Star**.

PROJECTS

Operation Sentinel Dashboard 🗄️ 🔗 <i>JavaScript, HTML, CSS, Leaflet.js</i>	2025
– Developed responsive dashboard for police deployment, zone monitoring, and resource tracking.	
– Implemented dynamic allocation logic with optimized DOM updates.	
– Integrated Leaflet.js maps for live markers and analytics.	
Spam Classifier 🗄️ 🔗 <i>Python, NLP, Scikit-learn, Streamlit</i>	2025
– Built spam detection pipeline using preprocessing and TF-IDF vectorization.	
– Trained SVM and Naive Bayes models with 98.4% accuracy .	
– Deployed Streamlit web app for instant classification.	
Property Recommendation System 🗄️ <i>Python, XGBoost, Random Forest</i>	Ongoing
– Developing recommendation engine for property price prediction and ranking.	
– Used web scraping, feature engineering, and ensemble models.	
– Designed scoring based on locality, amenities, budget, and ROI.	
Sargam - Spotify Clone 🗄️ 🔗 <i>HTML, CSS, JavaScript</i>	2026
– Built Spotify-inspired music player with dynamic playlist rendering , responsive UI , and smooth user experience.	
– Implemented play/pause , next/previous , shuffle , seek bar , and volume controls using HTML5 Audio API.	
– Designed automatic song fetching system supporting multiple playlists and real-time song switching .	

POSITIONS OF RESPONSIBILITY

Competitive Programming Member <i>Programming Club, NIT Jamshedpur</i>	2026 – Present <i>Jamshedpur, India</i>
– Participating in coding contests, practice rounds, and problem-solving sessions.	
– Guiding juniors in DSA and contest preparation strategies.	
Tech Team Member - SCSE <i>Society of Computer Science and Engineering</i>	2026 – Present <i>NIT Jamshedpur</i>
– Organized coding competitions, technical events, and engagement activities.	
– Conducted frontend workshops and supported event execution.	
Badminton Team Member <i>NIT Jamshedpur</i>	2024 – Present <i>Jamshedpur, India</i>
– Represented institute in badminton events with teamwork and discipline.
